Professional Summary

Enthusiastic and dedicated cybersecurity professional with certifications from Forage job simulations. Passionate about safeguarding data, strengthening defenses, and contributing to secure digital environments. Eager to leverage foundational skills and certifications to grow in a dynamic cybersecurity role.

Certifications

Tata Cybersecurity Security Analyst Job Simulation on Forage - September 2024

- Completed a job simulation involving identity and access management (IAM) for Tata Consultancy Services, collaborating with a Cybersecurity Consulting team.
- Acquired expertise in IAM principles, cybersecurity best practices, and strategic alignment with business objectives.
- Delivered comprehensive documentation and presentations, showcasing the ability to communicate complex technical concepts effectively.

AIG Shields Up: Cybersecurity virtual experience program on Forage - September 2024

- Completed a cybersecurity threat analysis simulation for the Cyber Defense Unit, staying updated on CISA publications.
- Researched and understood reported vulnerabilities, showcasing analytical skills in cybersecurity.
- Drafted a clear and concise email to guide teams on vulnerability remediation.
- Utilized Python skills to write a script for ethical hacking, avoiding ransom payments by bruteforcing decryption keys.

Mastercard Cybersecurity virtual experience program on Forage - September 2024

- Completed a job simulation where I served as an analyst on Mastercard's Security Awareness Team
- Helped identify and report security threats such as phishing

- Analyzed and identified which areas of the business needed more robust security training and implemented training courses and procedures for those teams

Commonwealth Bank Introduction to Cybersecurity Job Simulation on Forage - September 2024

- Completed a job simulation involving the role of a cybersecurity generalist, specializing in fraud detection and prevention for Commonwealth Bank's Cybersecurity team.
- Developed skills in building data visualization dashboards using Splunk to uncover patterns and insights in historical customer data, aiding in fraud detection.
- Demonstrated the ability to respond effectively to cybersecurity incidents, including notifying relevant teams, collecting information, containing and stopping attacks, and aiding in recovery efforts.
- Enhanced security awareness expertise by designing infographics promoting best practices for secure password management, following Australian Cybersecurity Centre advice.
- Acquired practical experience in penetration testing, assessing the security of web applications, identifying vulnerabilities, and providing recommendations for remediation to bolster cybersecurity defenses.
- **Skills**
- **Technical Skills:**
    - Network security
    - Penetration testing
    - Security monitoring tools (e.g., Splunk, Wireshark)
    - Vulnerability scanning and analysis
    - Incident response and threat detection
    - IAM (Identity and Access Management)
- **Soft Skills:**
    - Analytical problem-solving
    - Communication and teamwork
    - Attention to detail
    - Adaptability and continuous learning

Work Experience

Programmes officer
National Board for Technical Education, Nigeria | 2023 – till date

- Quality Assurance Inspection, analyzing and organizing data recorded from team inspection

Projects

Penetration Testing Documentation Report

- Conducted a penetration testing exercise on a website, identifying vulnerabilities and recommending mitigations. Delivered comprehensive documentation outlining risks and solutions.

Splunk Data Analysis for Fraud Detection

- Utilized Splunk to analyze fraud-related data across different sourcetypes and identified patterns and trends in fraud detection using various cybersecurity tools.

Education

[B.Eng. Electrical Engineering]
[Nnamdi Azikiwe University, Awka, Anambra State | 2019

- Relevant coursework: Network Fundamentals, Telecommunication Principles.
